Eligibility Conditions and Instructions

Eligibility for service credit

A member in the Pension Plus retirement plan is eligible to receive service credit for time spent on an intervening military leave of absence in accordance with the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA).

Your service is considered intervening if you leave state police employment, directly enter active duty in the U.S. Armed Forces, including reserve components, and return to employment with the MSP within six months of discharge.

Your service must meet specific USERRA criteria to be granted toward vesting with the State Police. If it doesn't meet those specific criteria, you must earn ten years of service before the credit will be granted.

Conditions

- Submit this form with your military discharge papers (DD214). ORS will determine if you are eligible.
- After discharge, you must return to employment within the allowed decompression time as set forth by the Civil Service Commission.
- You must have left state police employment to serve in one of the uniformed services: Army, Navy, Marine Corps, Air Force, Coast Guard, National Guard, or Reserves.
- Cumulative absences from your job for military service cannot exceed five years unless the additional service falls under one of the exceptions in Civil Service Regulation 2.04, *Military Leaves of Absence and Return to Work: Basic Rights*.
- You cannot receive credit for military service if you receive credit for the same service under another retirement system. However, this restriction doesn't apply if you will be eligible to retire from the federal government for service in the reserve component.

- If your military service meets the criteria established under USERRA, you will be granted service credit for the time you served in the military (subject to statutory limits) and any creditable decompression time allowed under the following guidelines:

Less than 31 days. Your military service and travel time from the place of service to your residence, plus 8 hours.

31 to 180 days. Your military service and up to 14 days of decompression time.

181 days or more. Your military service and up to 90 days of decompression time.

Elective Contributions

You can make up the elective contributions you missed while on military leave. If you choose to make up your elective contributions to your retirement savings account, the state will match those contributions up to 2 percent to your Personal Healthcare Fund first and up to 1 percent to your savings.

Payment of elective contributions must take place within a period equal to three times the length of your immediate past military service, but not longer than five years. For example, if you returned to work on May 1, 2016, after one year of military duty, you must make up any elective contributions within three years, which would be May 1, 2019.
